

Construction Update
Middlesex – US 2 Bridge Replacement
IM 089-2(41)

Project Location: Bridge 55 is located on US 2 in Middlesex approximately 1.9 miles east of the intersection of US 2/VT 100B and spans over Interstate 89 and the New England Central Railroad (NECR) line. This is a multi-year project with construction starting in 2016 and completion scheduled for 2018.

Week of April 24, 2017

Excavation for abutment 2 was completed last week and crews started driving steel piles for the footing. The footing for abutment 2 will have three levels. Driving of the piles will occur as each new level of the footing is completed.

Continued construction of pier 1 and pile driving for abutment 2 will be the focus of the work plan this week.

US 2 will be reduced to one lane throughout the entire project with alternating one-way traffic maintained. Flaggers will be present to assist with maintaining traffic flow.

Traffic – Minor traffic delays can be expected this week.

It is illegal in VT to use any handheld portable electronic devices while driving. The law carries fines of up to \$200 with points assessed if the violation occurs in a work zone.

Contact Francine Perkins, Project Outreach Coordinator, FRP Enterprises, LLC with any questions or concerns with regards to the project at 802-479-6994. Construction updates and project photos are posted at <http://www.us2middlesex.vtransprojects.vermont.gov/> .
