

**Construction Update**  
**Middlesex – US 2 Bridge Replacement**  
**IM 089-2(41)**

**Project Location:** Bridge 55 is located on US 2 in Middlesex approximately 1.9 miles east of the intersection of US 2/VT 100B and spans over Interstate 89 and the New England Central Railroad (NECR) line. This is a multi-year project with construction starting in 2016 and completion scheduled for 2018.

---

**In observance of Columbus Day, no work will be performed on the project Saturday (10/8) through Monday (10/10). Work will resume on Tuesday (10/11).**

**Week of October 10, 2016**

Crews will continue forming and pouring concrete for the footing that will support the abutment 1 retaining wall. Although the location of the footing is off of US 2, traffic will be reduced to one lane with alternating one-way traffic over the bridge so trucks can access the site. Flaggers will be present to assist with maintaining traffic flow.

**Traffic** – Minor traffic delays are expected this week.

**It is illegal in VT to use any handheld portable electronic devices while driving. The law carries fines of up to \$200 with points assessed if the violation occurs in a work zone.**
